TECHNICAL SKILLS

- Programming Languages:** Java, Python
- Web Development:** HTML, CSS, Bootstrap, JavaScript, PHP
- Databases:** MySQL, MongoDB
- Version Control:** Git, GitHub

PROJECTS

E-commerce Website

August 2024 - September 2024

- Devised a fully responsive e-commerce platform using **HTML**, **CSS**, and **JavaScript**, ensuring compatibility across various devices and browsers.
- Developed key features like product catalogs, shopping carts, and secure checkout processes, improving user engagement and experience.
- Utilized JavaScript to create interactive elements such as filters, product sorting, and real-time form validation.
- Optimized website performance through code minification and efficient asset loading to ensure fast page load times.
- Integrated third-party APIs for payment processing and order tracking to enhance functionality.
- Conducted cross-browser testing and debugging to ensure consistent and flawless performance across different environments.

Portfolio Website

January 2025

- Developed a responsive portfolio website using **PHP** for backend logic and **CSS** for a visually appealing, user-friendly design.
- Created an efficient **MySQL** database architecture that improved content retrieval speed by 40%, ensuring seamless updates for over 250 portfolio entries while enhancing user engagement through real-time interactions.
- Implemented interactive features using **JavaScript** for smooth navigation, form handling, and real-time content updates.
- Designed a responsive layout, optimized site performance through database queries and structured code, enhancing loading speed and user experience.
- Ensured secure handling of contact form data and project submissions, integrating CAPTCHA for spam protection.

Event Management System

Aug 2024 - Oct 2024

- Developed a robust Event Management System using Java, HTML, CSS, XML, and Tailwind CSS to streamline event planning and attendee management.
- Implemented core features such as event creation, attendee registration, ticketing, automate event operations.
- Utilized object-oriented programming principles to ensure scalability, maintainability, and efficient data handling.
- Enhanced user experience with a responsive interface designed using Tailwind CSS, optimizing performance for faster data retrieval and seamless interactions.

EDUCATION

Bachelor of Engineering in Computer Science

September 2022 - October 2025

Thakur College Of Science and Commerce

- CGPA: Going On

Class XII (HSC)– Science

August 2020 - August 2022

Vidhya Varidhi Jr.College Of Science and Commerce, Mumbai

- Percentage: 87.5%

Class X (SSC)

August 2019 - August 2020

SMT Indira Gandhi High School, Mumbai

- Percentage: 58.40%
-

CERTIFICATIONS

SDAC Infotech

September 2025

Full Stack Developer

INTERNSHIPS

SDAC Infotech

June 2024 - July 2024

Web Developer Intern

- Assisted in developing and maintaining responsive websites using **HTML**, **CSS**, and **JavaScript**.
 - Collaborated with the development team to implement new features and optimize existing ones for improved performance.
 - Participated in debugging and troubleshooting to ensure cross-browser compatibility and functionality.
 - Gained hands-on experience in version control using **Git** and contributed to project documentation.
-
