SUMMARY

Motivated and detail-oriented Web Developer Intern with hands-on experience in designing and maintaining responsive websites. Proficient in HTML, CSS, JavaScript, and Git version control. Skilled in problem-solving, optimizing site performance, and ensuring cross-browser compatibility. Passionate about contributing to dynamic development teams and continually improving technical skills.

SKILLS

- Front-End Technologies: JavaScript, HTML5, CSS3, Bootstrap, Tailwind
- Back-End Technologies: Node.js, Express.js, Python, Java
- Database Management: MySQL, MongoDB
- Version Control & Tools: Git, VS Code, Eclipse IDE
- Interpersonal Skills: Effective communication, teamwork, adaptability, problem-solving

WORK EXPERIENCE

SDAC Infotech, Mumbai   **April 2024**
Full Stack Developer Intern

- Developed and deployed a cloud-based inventory system on AWS, increasing stock tracking efficiency by 30%
- Assisted in the development and maintenance of responsive websites using HTML, CSS, and JavaScript
- Collaborated with the team to implement new features and optimize performance
- Debugged and troubleshot issues ensuring cross-browser compatibility
- Used Git for version control and contributed to project documentation

PROJECTS

Event Management System
- Technologies Used: Java, HTML, CSS, XML, Tailwind CSS
- Modules: Event creation, attendee management, ticketing, reporting
- Approach: Employed object-oriented programming for scalability and module management
- UI Design: Built a responsive and animated UI using Tailwind CSS
- Architecture: Used MVC pattern for separation of concerns and maintainability

Portfolio Website
- Developed a responsive portfolio website using PHP for backend logic, HTML, CSS and Bootstrap for a visually appealing, user-friendly design.
- Created an efficient MySQL database for storing project details, contact form submissions, and user interactions.
- Implemented interactive features using JavaScript for smooth navigation, form handling, and animations for an engaging user experience.
- Designed a responsive layout, optimized site performance through database queries and structured code.
